Commissioner of Health

## EPA Lead Safety for Renovations, Repairs, & Painting Course

The EPA **RRP RULE** requires that all renovations, repairs, & painting done in Pre-1978 housing must be done by or under the supervision of a **CERTIFIED RENOVATOR**. This means that all **LANDLORDS, PROPERTY MANAGERS, & CONTRACTORS** are required to take this course. If the Health Department did a lead-based paint investigation at a property you own or manage and you are under notice to complete lead hazard remediation, we are offering the EPA **RRP Training** class at a **reduced rate**. Upon completion of the training you will be an EPA **Certified Renovator** able to work on any Pre-1978 dwelling. Program staff will be on hand to assist in the completion of the **REQUIRED WORK PLAN**.

**You may receive the Lead Safe Work Practices Paint Kit ONLY** if you are cited for Lead-Based Paint violations and have completed a work plan and received your certification from this class.
